

**VSD243** 

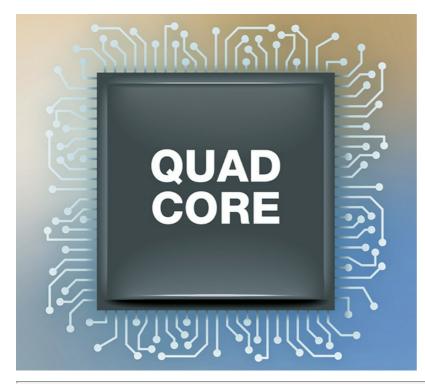

- Full HD 1080p resolution
- 10-point Multi-touch
- Equipped with Wi-Fi, Bluetooth, and RJ45
- Built-in webcam, integrated microphone and speakers
- Powerful Quad Core Processor

The ViewSonic VSD243 is a 24" smart display that delivers flexibility and power needed for heavy usage in public spaces. With its sleek ID, thin bezel, fan-less design, 7H hardness screen coating, and VESA mounting capabilities, the VSD243 is a flexible solution for information kiosks, public displays, or POS stations in business centers, libraries, or retail environments. Combining the power of a Rockchip quad-core processor, a professional-grade VA panel, and a 10-point interactive touchscreen, this smart display delivers a responsive, tablet-like browsing experience. What's more, a built-in webcam, integrated microphone, and speakers make the VSD243 the perfect interactive, self-contained, kiosk-in-a-box.

# **Powerful Quad Core Processor**

Equipped with the powerful Rockchip RK3288 1.8GHz Quad-Core Cortex A17 processor, this smart display provides smooth, lightning-fast computing no matter what applications are running.

## **10-point Multi-touch**

With 10-point multi-touch technology and a durable, scratch-resistant surface, this smart display provides outstanding interactive capabilities in public environments. Users can also utilize the smart display as a Full

HD touch display to connect to existing PCs, notebooks, or tablets.

## Equipped with Wi-Fi, Bluetooth, and RJ45

This smart display includes Wi-Fi 802.11 a/b/g/n, Bluetooth 4.0, and RJ45 Ethernet, providing flexible access options for website browsing, cloud access, and data exchange.

## **4 USB Ports**

4 USB ports deliver versatile connectivity to diversified storage devices, peripherals, and high-definition electronics for enhanced convenience and flexibility.

## **Complete Multimedia Package**

With a built-in webcam, integrated microphone and speakers, and Full HD resolution, this smart display offers a complete multimedia package for professional-grade video conferencing. Users can also utilize the webcam when the smart display is connected as an external display to a PC, notebook, or tablet.

## **Enhanced Viewing Comfort**

Flicker-Free technology and a Blue Light Filter help to minimize eyestrain from extended viewing periods.
