About This Guide

This guide provides a brief introduction to Smart Bulb and the Kasa Smart app, as well as regulatory information.

Please note that features of Smart Bulb may vary slightly by model and software version. All images, parameters and descriptions in this guide are only examples and may not reflect your actual Kasa experience.

Conventions

In this guide, the following convention is used:

Convention	Description
Teal	Key information appears in teal, including management page text such as menus, items, buttons and so on.
<u>Underline</u>	Hyperlinks are in teal and underlined. You can click to redirect to a website.

Support

- Specifications can be found on the product page at <https://www.tp-link.com>.
- Our Technical Support and troubleshooting information can be found at <https://www.tp-link.com/support/>.

Introduction

The Smart Bulb is part of the Kasa smart home family of products, including plugs, switches, cameras and more. You can adjust brightness, track energy consumption, set schedules and timers, and set an alarm that wakes you naturally by simulating the sunrise. Group lights together to control your smart bulbs more easily and create your own scenes.

You can also control multiple smart home devices with the Kasa app or use your voice for added convenience. With Kasa, your home is never more than a few taps away.

- **No Hub Required** - The Smart Bulb screws in just like an ordinary bulb. Simply download the Kasa Smart app, connect to Wi-Fi and enjoy. No special hardware is needed.
- **Scheduling** - Set your smart bulb to turn on or off while you are home or away.
- **Energy Saving** - Reduce power usage without compromising on light quality.
- **Voice Control** - Pair the smart bulb with Amazon Echo, Dot and Tap or Google Assistant for voice control.
- **Remote Control** - Set up the smart bulb easily and control from anywhere with the free Kasa Smart app.

Set Up Your Smart Bulb

Follow the steps below to set up your smart bulb via the [Kasa Smart](#) app.

Step 1. Download Kasa

Get the [Kasa Smart](#) app from the App Store or Google Play.

OR

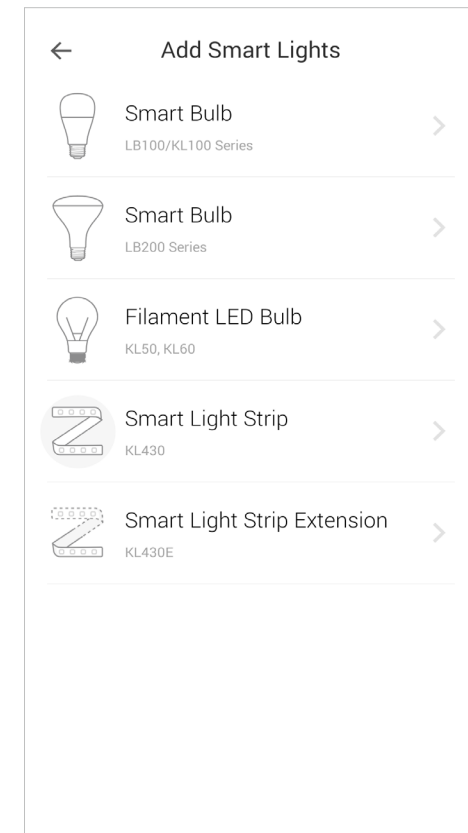

Step 2. Log In

Open the app, and log in with your TP-Link ID. If you don't have an account, create one first.

Step 3. Add Device

Tap the  button in the Kasa Smart app and select [Add a Device](#) > [Smart Lights](#) > [Filament LED Bulb](#). Follow app instructions to complete the setup.

Main Device Controls

After you successfully set up your Smart Bulb, you will see the Devices page of the Kasa Smart app. Tap a smart bulb to see the Smart Bulb page.

Devices Page

This page lists your smart bulbs, and other smart home devices if any. You can instantly turn on/off the bulb.

Smart Bulb Page

On the [Devices](#) page, tap a [Smart Bulb](#), then you can have more detailed configuration options about your bulb.

*The image is for demonstration only.

Configure Your Smart Bulb

On the [Smart Bulb](#) page, you can adjust the light temperature, set schedules, track energy consumption and change settings.

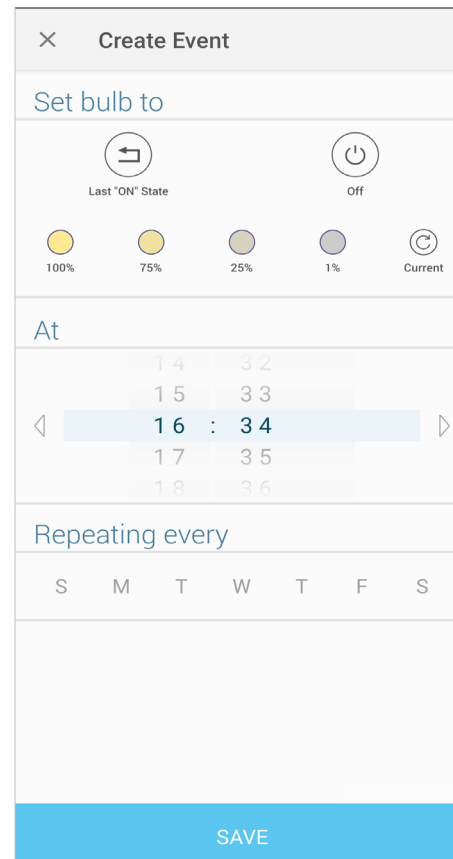

Presets and Recents

Tap  to add presets and apply what you have set recently to your smart bulb.

Create Event

Tap  to set schedules for your smart bulb to simplify your daily routine by creating automatic On/Off action.

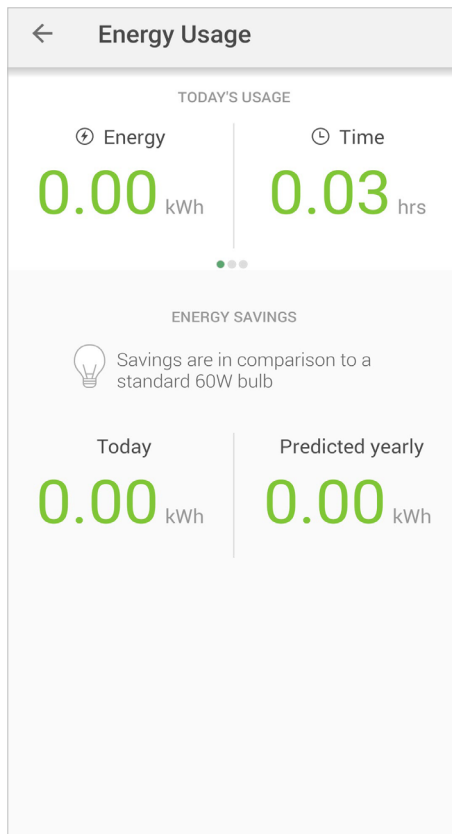

Configure Your Smart Bulb

On the [Smart Bulb](#) page, you can adjust the light temperature, set schedules, track energy consumption and change settings.

Usage

Tap  to view and track energy consumption.

Device Settings

Tap  to view and change the settings of your smart bulb. Moreover, you can enable remote control for ease of use.

Create Scenes

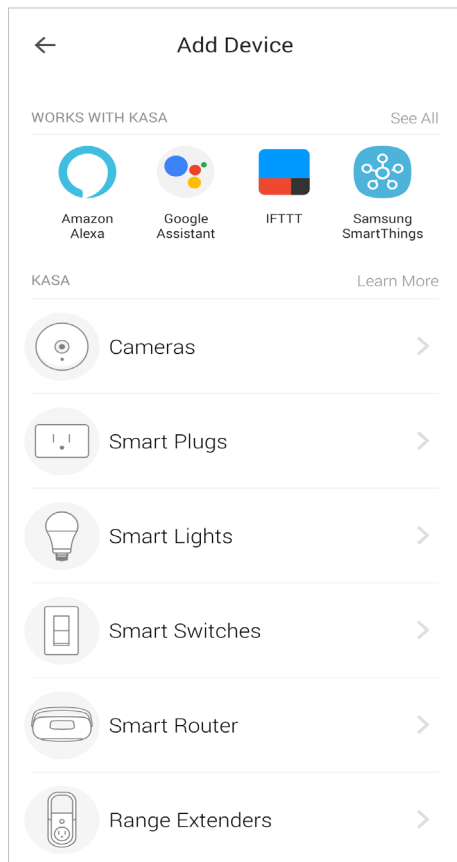

A scene is a preset group of smart devices that can be programmed, customized and activated simultaneously at the touch of a button from your smart phone or tablet, allowing you to easily set your mood, activity or fit any special occasion. This page allows you to preset how your smart home devices should act automatically at special occasions.

Discover Kasa

Use the Kasa Smart app to pair your Smart Bulb with Amazon Alexa or Google Home Assistant and enjoy a full hands-free experience. Kasa helps manage the rest of your smart home too, working with Samsung SmartThings to trigger changes when you arrive home or leave for the day. IFTTT support makes it easy to set interactions between a whole host of products.

Launch the **Kasa Smart** app and go to **Add Device > WORKS WITH KASA > Amazon Alexa / Google Assistant/ IFTTT / Samsung SmartThings** for detailed instructions.

FCC Compliance Information Statement

Product Name: Kasa Filament Smart Bulb

Model Number: KL50 / KL60

Component Name	Model	FCC ID
Kasa Light Wi-Fi Module	KLM100	TE7KLM100

Responsible party:

TP-Link USA Corporation, d/b/a TP-Link North America, Inc.

Address: 145 South State College Blvd. Suite 400, Brea, CA 92821

Website: <http://www.tp-link.com/us/>

Tel: +1 626 333 0234

Fax: +1 909 527 6803

E-mail: sales.usa@tp-link.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.

2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

OPERATING FREQUENCY (the maximum transmitted power)

2412 MHz -2472 MHz (20dBm)

No restrictions exist in the use of radio frequencies or frequency bands in all EU member states and EFTA countries.

EU declaration of conformity

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/53/EU, 2009/125/EC, 2011/65/EU and (EU)2015/863.

The original EU declaration of conformity may be found at <https://www.tp-link.com/en/ce>.

RF Exposure Information

This device meets the EU requirements (2014/53/EU Article 3.1a) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

The device complies with RF specifications when the device used at 20 cm from your body.

Canadian Compliance Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- 1) This device may not cause interference.
- 2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Industry Canada Statement

CAN ICES-3 (B)/NMB-3(B)

Korea Warning Statements

당해 무선설비는 운용중 전파혼신 가능성이 있음.

Продукт сертифіковано згідно с правилами системи УкрСЕПРО на відповідність вимогам нормативних документів та вимогам, що передбачені чинними законодавчими актами України.

Safety Information

- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device.
- Do not use the device where wireless devices are not allowed.
- Only use the control provided with or specified by these instructions to control this device.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.

WARNING:

- RISK OF ELECTRIC SHOCK OR BURNS. Switch OFF the light switch controlling the bulb and WAIT for the bulb to cool down before attempting to change it.

- Do not install the Smart Bulb with wet hands or when standing on wet or damp surfaces.
- Compatible with regular light switches. Not suitable for use with standard in-wall dimmers. Not compatible with photosensors, motion sensors, or timers. Dimmable via the app only.
- NOT for use in totally enclosed or recessed luminaires. Suitable for damp locations.
- NOT FOR EMERGENCY LIGHTING.
- The increased weight may reduce the mechanical stability of certain luminaires and lampholders and may impair contact making and lamp retention.
- Operating Temperature: -15°C~40°C(5°F~104°F)
- Storage Temperature: -20°C~70°C(-4°F-158°F)
- Operating Humidity: 10%~90%RH, Non-condensing
- Storage Humidity: 10%~90%RH, Non-condensing
