Features

Curved for your viewing pleasure

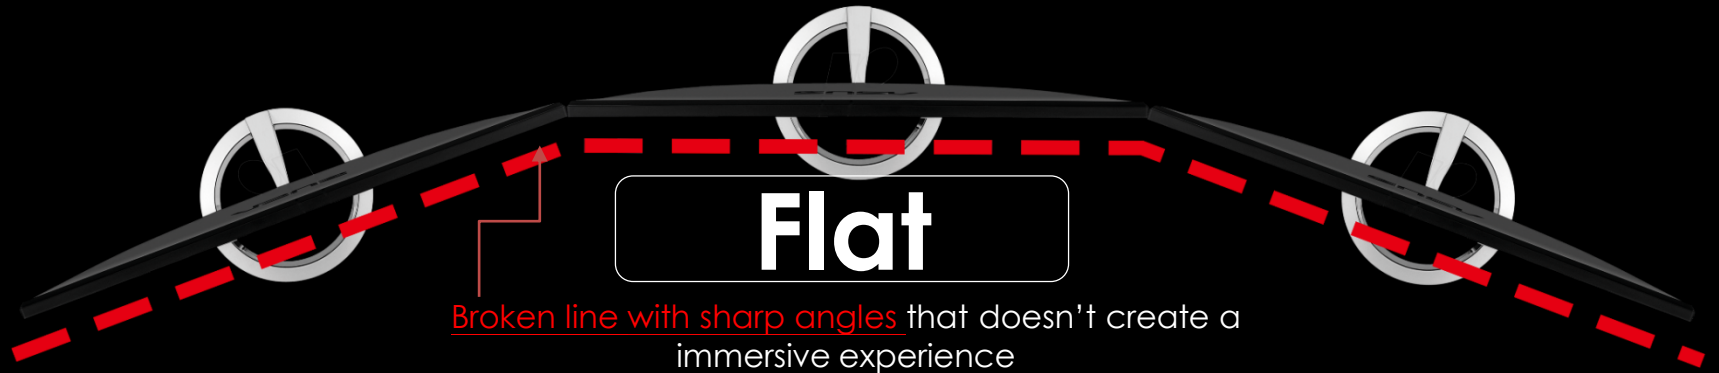

MSI gaming monitors use a curved display panel that has a curvature rate of 1500R, which is the most comfortable and suitable for a wide range of applications from general computing to gaming. Curved panels also help with gameplay immersion, making you feel more connected to the entire experience.

Perfect Curved Multiscreen setup

Curved

One perfect curved line for your monitors to create a glorious battlefield.

Flat

Broken line with sharp angles that doesn't create a immersive experience

See Clearly in the Dark

Whether your entire screen is dark, or just a few portions have heavy shadows. Let the world's first smart black tuner brighten your day by bringing out the fine details in dark areas.

Normal - Hardly see

Night Vision

Black Tuner - Over exposed

Gaming Features

High Performance for Maximum Precision

200Hz

1ms

200Hz refresh rate, **1ms** response time

Optix monitors are equipped with a 165Hz refresh rate and 1ms response time VA panel which has the most benefit in fast moving game genres such as first person shooters, fighters, racing sims, real-time strategy, and sports. These type of games require very fast and precise movements, which an ultra-high refresh rate and fast response time monitor will put you ahead of your competition.

Smoothest Gameplay

SMOOTHEN OUT YOUR GAMEPLAY

Gaming shouldn't be a choice between choppy gameplay or broken frames. With MSI Optix series gaming monitors, it doesn't have to be. Get fluid, artifact-free performance at virtually any framerate with AMD FreeSync™ technology.

*Note: FreeSync technology requires a monitor and AMD Radeon™ graphics, both with FreeSync support. See <http://www.amd.com/freesync> for complete details. Confirm capability with your system manufacturer before purchase. GD-127

True Color

Wide Gamut Coverage

The Optix monitors have more gamut coverage compared to general monitors. Gameplay colors and details will look more realistic and refined, to push immersion to its limits.

Adjustment
-5° ~ 20°

Height

Adjustment
0 ~ 110mm

Swivel

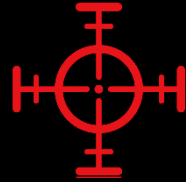

Adjustment
-30° ~ 30°

Pivot

Adjustment
-90° ~ 90°

The MSI Optix Gaming monitor is built to make you as comfortable as possible while gaming. Through adjustments of four dimensions, you can easily change the position of the monitor for maximum ergonomics and optimum viewing experiences.

Fit Your Gaming Style

Gaming Mode

MSI gaming monitors offers several game modes for gamers to choose from. Gamers can choose the mode based on the style of the game to experience the best visual effects.

Frameless Design

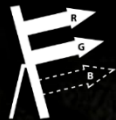

With a super narrow bezel, enjoy the best immersion possible in the latest games with a multi-monitor 180 degree setup. Enjoy better continuity between screens while playing games, working, or general computing.

msi

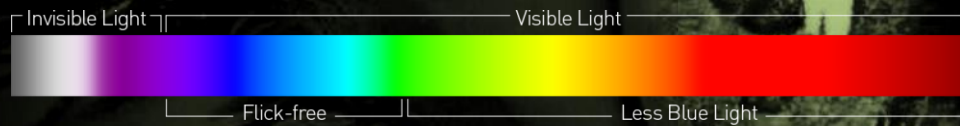

Soft to the Eyes

Less Blue Light

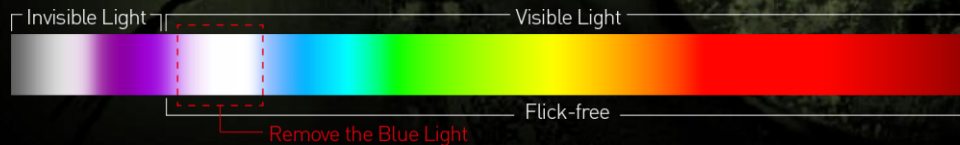

MSI gaming monitors are optimized to reduce eye strain by lowering the total amount of blue light, ensuring you a longer period of game time without fatigue.

GENERAL LCD

OPTIX SERIES

Wide Viewing Angle

178°

By having a large viewing angle, MSI gaming monitors has more leeway for placing your monitor in your setup without giving up the optimal viewing experience. Colors and details will stay sharp at more angles compared to other monitors with less viewing angles.

Gaming OSD App

Easy to use

Using keyboard & mouse to optimize monitor OSD function in a very easy way

 **MSI**

OSD and gaming are both on your hand's control

 **Other Brands**

Use your hand but out of control with your game

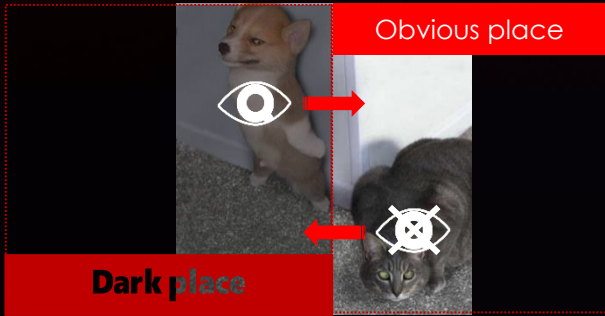

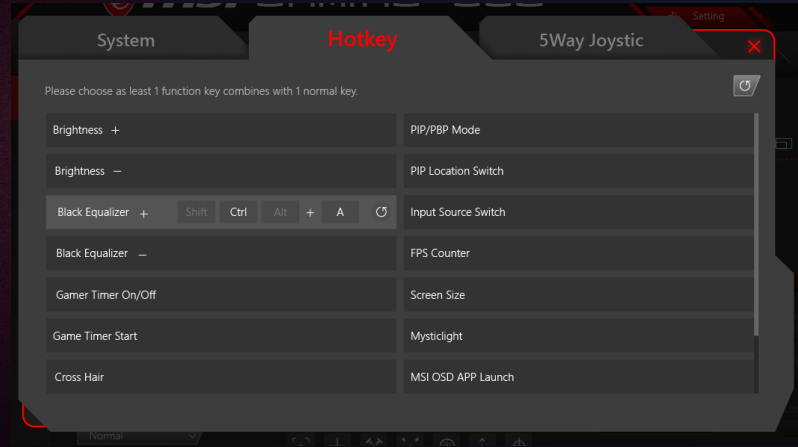

Automatically link to Profile
